  25 Amps, 120 Vac
  22 Amps, 240 Vac
  18 Amps, 277 Vac

- **Positive Snap-Action Switch**

- **3 Degree Control Differential**

- **UL Listed, CSA Certified**

WR-80

WR-90

Description

WR-80
Range 40-80°F Internal Sensing Element Indicating Thermometer

WR-90
External Sensing Bulb Range 20-90°F

The WR Series Room Thermostats are designed to directly control individual heaters or, by using an external contactor, can control several heaters. The WR-90 is particularly useful for maintaining lower temperatures (in garages, warehouses, etc.) and avoiding unnecessary heating costs.
Each design has accuracy and provides long reliable service with a 3 degree control differential. Both units are heavy duty, single stage, with a SPST line voltage snap-action switch and are finished with tough, metallic gray enamel housings.

WARNING: Hazard of Fire. The WR thermostats are designed for temperature control service only. Because they do not fail-safe, they should not be used for temperature limiting duty.
